

FLEXIBLE SEATING

SEATING

Student Contract

.....
I, _____, understand that our classroom flexible seating options are a privilege, and should be treated with respect like all our classroom materials.

I promise to use our flexible seats the way they are designed to be used. When I choose my seat and spot to sit, I will make the best choice for my own learning; it will be a choice that will help me do my best.

If Mrs. Cranow, or any other adult, observes that I am not making good choices and following this seating agreement, he/she may move my seat to best suit me at that time.

Please refer to the back for the rules you must follow.
